

Flu Season is upon us and the COVID-19 outbreak could be here as well.

We are taking precautions.

Erb Financial has never taken flu season lightly, and the new Covid-19 outbreak reinforces the precautions we are taking.

- **We encourage all customers and employees to stay home if they are not feeling well or are sick.**
- **All employees practice recommended personal hygiene practices including regular hand washing and disinfecting work spaces.**
- **Multiple times throughout the day our employees disinfect common office place locations and items, including door handles, pens, desktops, phone handsets, coffee dispenser handles, and the like.**
- **We encourage everyone to temporarily abstain from some customary habits as shaking hands and other personal greetings.**
- **We encourage our tax season customers to drop off or mail in their tax documents in lieu of a face-to-face meeting.**

Thank you for your understanding and cooperation!
